

Silent No More Awareness Campaign

The **National Silent No More Awareness Campaign** wants to share the truth with the general public about the negative consequences of abortion for women. The campaign is also reaching out to women who have experienced abortion, letting them know that help is available.

The campaign is making the voice of thousands of women who regret their abortion heard nationwide. The **Silent No More Awareness Campaign** invites women who want to help get the truth out to display these products and register at their web site to join them in being **Silent No More!**

NEW! Silent No More Awareness

The National Silent No More Awareness Campaign is an effort to make the public aware of the devastation abortion brings to women, men, and their families. The emotional and physical pain of abortion should not be shrouded in secrecy and silence, but rather exposed and healed. As we are silent no more, society will see that abortion hurts and doesn't help. This DVD contains: One 28 minute Presentation of the Campaign, one 14 minute Presentation of the Campaign, one 60 second commercial and two 30 second commercials, and 11 full-length personal stories, including one in French.

7737SN 1+/10.00

Coffee Mugs - Women Do Regret Abortion 11 oz. mugs are durable and dish washer safe. The graphics wrap around the mug in vibrant colors.

Why the butterfly logo? The Silent No More Awareness butterfly logo expresses the transformation of a woman when she has experienced help and healing after abortion. The transformation of a caterpillar in a cocoon of silence into a beautiful butterfly captures the change that happens to women when they experience God's love and forgiveness.
